POWERED BY **DNP**
 Photo Imaging

All of Innovative Foto's photo booths utilize DNP dye-sublimation printers. DNP printers are known for their exceptional quality and durability. DNP printers produce amazing prints resistant to fading, peeling, and cracking. This means that your guest's precious memories will remain vibrant and intact for years to come.

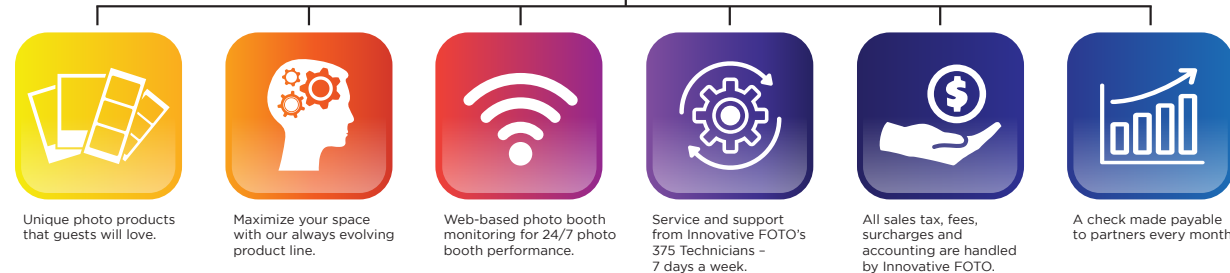

DNP, founded in 1876, is the world's largest diversified printing/coating technologies company. Over 25 years ago, DNP was one of the earliest organizations to pioneer dye-sublimation media and the first company to start business development in thermal transfer ribbons. DNP has since grown to be the world's largest manufacturer of dye-sublimation media and thermal transfer ribbons. For more information, please visit www.dnp.co.jp/eng.

REMOTE FOTO ZONE

Introducing Innovative FOTO's Remote Foto Zones!

They create one-of-a-kind guest experiences in venues ranging from zoos, aquariums and museums to specialty retail. Powered by DNP's Smart Capture technology, this photo system will engage your guests by creating unique photo opportunities that cannot be captured using their cell phone cameras. Guests have a new, fun experience and receive a great photo print. Venues are able to activate special locations in their facility and reinforce their brand in the final images received by guests.

Remote Foto Zones are a unique, user-friendly guest experience without the need for costly staffing. Innovative FOTO's revenue sharing program allows businesses to generate additional revenue from their current photo booth without risk or major startup costs.
