

Unmanned Green Screen

INTRODUCING THE PGS BY INNOVATIVE FOTO

The Self-Service Green Screen is a unique photo kiosk that eliminates the need for costly staffing. The Green Screen Experience is fully customized to be unique to your venue and with our revenue sharing program you will generate additional revenue with no risk and no startup costs. The Green Screen is an intuitive user friendly experience. It allows your venue to provide your visitors with a branded lifetime memory of their experience that is suitable for framing.

Features & Benefits

HOW IT WORKS

- No cost to you. Innovative Foto provides Design Service, Kiosk and Service Maintenance
- Custom designed, free-standing kiosk with all lighting, camera, print delivery and payment options built into one unit
- Completely self-serve. Eliminates the need for costly staffing
- No responsibility for cash handling. All transactions completed at the kiosk
- Localized branding through customized exterior graphic wrap and digital display
- Update and change your digital marketing message remotely via wireless aircard, including custom output graphics to coincide with featured exhibits, holiday seasons or special events

WHAT'S INCLUDED
